About Chai Cha Na Mining Ltd.

Chai Cha Na Mining (CNSX: CNN) is a Canadian mineral exploration company focused on projects offering the potential for significant upside both in the precious and based metals sector. Currently the primary focus of “the Company” is the early stage development of the Mission North Gold property located 25 kms outside of Mission, B.C. It is situated in an area believed to have limited or no previous exploration. Recent logging in the area in the fall of 2008/2009 exposed the newly discovered “Iain’s Vein Glory High Grade Gold Vein” where initial samples indentified significant gold, silver, copper, zinc and lead values. The company recently received its permitting and will conduct an initial geophysical program with follow up trenching and shallow drilling.

Fred Fisher, President/CEO of Chai Cha Na states *“Our Mission North Gold Property not only contains multiple high grade gold veins but now is showing indications that lower grade mineralization continues into the footwall and hangingwall zones of the system. This is*

exciting for the Company and for the project. We continue to advance the project aggressively and look to fully evaluate this gold project as we move forward in 2010."

Chai Cha Na Mining also has an option to earn a 100% interest in the Golden Summit project located in the historic Pioneer/Bralorne gold camp in southern British Columbia, and an option to earn a 100% interest in the Fox River nickel project located in northern Manitoba.
