

CANADIAN NATIONAL STOCK EXCHANGE

President's Message

Robert Cook
President

Out with a bang!

Trading activity, growing steadily in the latter half of the year, popped in December with an all-time record volume month of 59.4 million shares. Trading volume increases were experienced by most companies but congratulations go to Mantis Minerals for achieving 20% of that volume.

The steady growth in CNSX listings continued with three new companies added. All of these can be found on line in the Listings Disclosure Hall which provides investors with access to all corporate filings, news releases, recent market activity, stock charts and basic information about each company. Those that take the time to investigate can find full, true and plain disclosure in each company's Listing Statement that is reviewed when the company applies to be listed.

Globeinvestor.com, one of Canada's most visited market information sites is the provider of stock charts and corporate data to cnsx.ca through links in the Disclosure Hall. When this was implemented last year other system changes caused us to drop the delayed market depth display. This is the single most requested item when people comment on our website and we do have plans underway to re-introduce it in the first quarter of 2010.

Our second most requested change was to speed up the response time of the website and that was accomplished in December and the change is quite effective. We of course welcome any suggestions for improvement and do our best to respond where feasible. In fact we receive more compliments than complaints about the website which is certainly gratifying but we won't hesitate to make changes where we see a chance for improvements that will have an impact on either performance or access to useful information.

All the best in the new year ... bonne année.

Pure Trading

Although trading volumes were down across Canada in the month of December, a normal occurrence with the holiday lull at the end of the year, Pure Trading improved its market share in the trading of senior listed stocks to 1.87% for the month, representing more than 217 million shares traded. In addition, we also traded just under 60 million shares listed on the Venture Exchange, yielding a market share of more than 1% (1.15% to be precise) for the first time. On the month, the top 20 issues traded were:

December was also a busy month on the regulatory front, with the industry providing comments to the Canadian Securities Administrators on issues raised by “Dark Pools” and “Dark Orders”. A total of 22 comments were submitted (go to <http://www.osc.gov.on.ca/en/26591.htm> for the collected comments) from marketplaces, sell side and buy side firms. This promises to be the first step in a lengthy process to address concerns arising from the use of anonymous matching systems and hidden order types.

Finally, we wish to welcome a number of new dealers to the CNSX Markets trading community this month:

- CI Capital Markets Inc. (# 20 on the tape)
- Jennings Capital Inc. (#121)
- Jacob Securities Inc. (#110)
- Liquidnet Canada Inc. (#38)
- Fraser Mackenzie Limited (#111)

With 87 participating dealers, Pure Trading continues to lead the alternative markets in the scope of our dealer reach.
