Survey Work Begins on Vista Del Lago

Calgary, Alberta, - September 7th - Stoneset Equity Development Corp. (CNSX:SQC) is pleased to announce that survey work is now underway at Vista Del Lago. The survey work is being completed prior to municipal infrastructure, site servicing and overall site grades. According to Doug Haines, Stoneset's Senior Project Manager: "Along with the already approved development permits, the survey work and associated infrastructure, will add more value to the project and in turn more value to Stoneset and its investors."

Once complete Vista Del Lago will complete the city of Invermere serving as the ultimate anchor to 13th Street; stimulating pedestrian foot traffic to businesses and services along the downtown corridor.

###

Stoneset Equity Development Corp is a Calgary-based real estate investment company and property developer with a vision to create balance of consistent growth for investors, minimal environmental impact and value to the community.
